

2/26/10

Dear Mr. Bryant,

I would like to take some time to thank you for all your help with the case of my driver's license suspension. I heard of you through a friend and after explaining my case to you, you promptly took action and put things in motion.

I was issued a ticket for 25 mph over the speed limit. As a nineteen-year-old, since the speeding ticket was 24+ mph, the Department of Driver Services suspended my license for six months. Not knowing that there was anything that could be done in the case, I had already paid the fine and surrendered my license. Within the first week after hiring you, you had filed a motion to get my guilty plea removed. Two weeks after my initial contact with you, you were able to get the speeding ticket reduced to 14 mph over the speed limit and obtain an Order from the Court for my license to be reinstated.

I took the defensive driving class that you selected for the court to mandate, and thoroughly enjoyed the learning experience. The class was definitely well worth the additional time and expense.

If I am ever in any need of legal assistance, you will be the first person for me to contact. I will also be sure to recommend you to anyone else that I come in contact with that could benefit from your professionalism and immediate action.

Due to your precise efforts I was able to keep my job (and my girlfriend), remain a full-time student in college, and able to continue with my life in an ordinary fashion. Thanks again for your help in this matter.

God Bless and GO DAWGS!!!!

Aaron
