RE: Thank you

Just wanted to send a quick line to say what a great job Russell did on my behalf.

I made a bad decision on my birthday, and the future ramifications were potentially extremely harmful to my career, on both the civilian and military sides. Mr. Bryant was not only up front and honest about the situation, everything he stated in the consultation came through on court day. He was able to successfully mitigate my charge to an outcome that should have no consequences for my future.

I would recommend Russell to anyone who asks.

Thank you very much, Russell.
