

11/14/12

I was arrested in Smyrna for reckless driving and speeding. I was facing very large fines and suspension of my drivers license. If my license were to be suspended it would have been devastating for me as I'm a automotive technician and I need it to make a living.

Russell was able to get my charges dismissed in days of me hiring him so I didn't even have to appear in court. Russell produced unbelievable results in a amazing time frame. He's a real life saver and I don't know what I would have done without him!
