I have a testimonial for Russell.

Unfortunately, I had round 2 with my ex-husband in court. As with the first trial Russell was OUTSTANDING. He presented the evidence to the judge in the most professional manor and he protected me.

As a trial lawyer, Russell is methodical in presenting the case. With each fact he brought to the judge's attention, he continued to build his case for my benefit. He was Great at protecting me from opposing counsel's questions that had no relevance to the trial or that may have been the least little bit detrimental to my case.

As with the first trial my ex-husband left empty handed.
