Russell is a great guy and a very good attorney. He has made me a lot of money through the years, but more importantly, he has counseled me many times and helped save money by discussing how to avoid exposure in my business and when and when not to go after people that have done wrong by us.

He is charming, matter of fact, knows the law, is very detailed in his work and he will not throw your money away.

But, he is a rabid Georgia fan....
